

Desiree Redditt

Candidate for Portage County Supervisor — District 8

Committed to Community. Dedicated to Service. Focused on Solutions.

About Desiree

As the *Town of Hull Municipal Clerk* for four years, I have proudly served our community with integrity, transparency, and responsiveness. In this role, I have managed town operations, administered elections with dedication to democratic process, and collaborated closely with residents to address their concerns in an efficient, respectful, and accessible way. I have experienced firsthand how local government affects people's everyday lives — from fiscal stewardship to public communication — and I am ready to bring that experience to the Portage County Board.

Why I'm Running

Portage County is a place with strong communities, hardworking families, and rich natural resources. Yet, residents continue to raise concerns about issues that impact quality of life, economic stability, and the future of our county. I am running to represent District 8 with thoughtful leadership that *listens first, then leads*.

I'm not a career politician. I'm a working member of this community who stepped up because I believe local government should reflect on the people it serves. I believe in fairness, transparency, and standing up for what's right — even when it's not the easiest path.
